Legend of Egypt Linear Art Design

1. Create a design with the 10 <u>straight</u> linear equations given.
2. After checking all the lines are correct and <u>straight</u> move to the points.
3. Make sure when you are done you color! :)

---

1. $y = 9$
2. $= -13$
3. $y = -2/1 + 9$
4. $y = -3/2x + 9$
5. $x = -11$
6. $x = 11$
7. $y = 1/2x + 9$
8. $4/3x + 4$
9. $-3/4x + 4$
10. $x = -1$

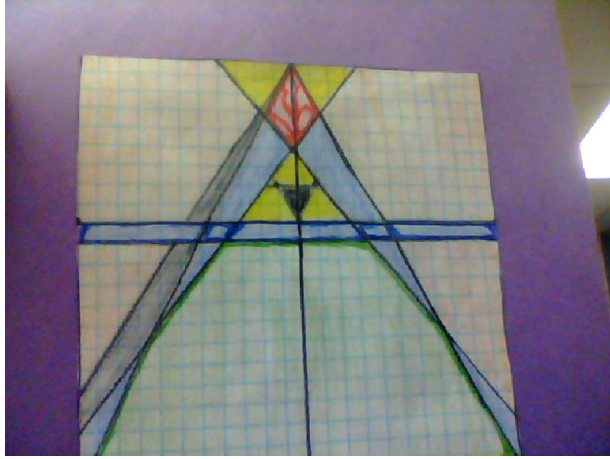

Once when you are finished with the equations move on to the points.

(0,0)	(-1,2)
(1,2)	(1,2)
(-3,0)	(0,0)
STOP	**STOP**

It should look like this:

You can color how ever you want. :)
